

# YEVGENIY STARINETS

FRONTEND DEVELOPER

438 408-5926 | [gobvoz@gmail.com](mailto:gobvoz@gmail.com)  
[linkedin.com/in/gobvoz](https://www.linkedin.com/in/gobvoz) | [github.com/gobvoz](https://github.com/gobvoz)  
English – Ukrainian – Russian

## PROFESSIONAL SUMMARY

- Over 20 years of experience in software development, system architecture, and technology integration
- Strong expertise in frontend engineering using React, TypeScript, and modern technologies
- Proven ability to manage high-impact IT projects from planning to delivery
- Passionate about continuous learning and applying new technologies to solve complex problems
- Recognized for autonomous work, adaptability, and strong collaboration with cross-functional teams

## TECHNICAL SKILLS

- **Frontend Development:** TypeScript, React, Redux, REST API/GraphQL/WebSockets
- **Backend Development:** Node.js, Express, NestJS, NextJS with SQL, Postgres, MongoDB
- **Automatization:** Webpack, Docker, GitLab, GitHub Actions, Storybook
- **Testing:** Mocha, Jest, React Testing Library, Cypress, Playwright
- **Architectures:** Microfrontend, Featured-Sliced Design

## PROFESSIONAL EXPERIENCE

### Frontend Developer

RankWorks, Pointe-Claire | May 2021 to Dec 2024

**Project:** Influencer Marketing Platform

**Technologies:** React, TypeScript, Redux, WebSocket, Featured-Sliced Design, Rest API, Microfrontend

- Developed the frontend of a platform connecting advertisers and influencers, managing the entire lifecycle from concept to deployment
- Built all frontend components using React and TypeScript, with a focus on performance, scalability, and UX
- Implemented advanced filtering, real-time chat, and blockchain contract management systems to meet complex user needs and enhance reliability
- Independently managed all frontend development tasks and delivered a fully functional product on time

**Project:** Social media Data Consolidation Platform

**Technologies:** React, TypeScript, Redux, GraphQL, Microfrontend

- Led the development of a platform to consolidate and analyze data from Facebook, Instagram, TikTok, and others
- Developed AI-based features for auto-generating content and scheduling social media posts
- Built AI recommendations to improve websites and online review strategies, boosting client engagement
- Integrated comprehensive Search Engine Optimization (SEO) tools into the platform, boosting the visibility and searchability of client websites

## PROFESSIONAL EXPERIENCE (continued)

### Smart Home Integrator

Freelance, Central Asia | Sep 2016 to Aug 2021

- Analyzed client needs and developed tailored smart home automation solutions, including system diagrams and specifications
- Selected and procured appropriate equipment and components based on project requirements
- Installed and configured hardware systems (sensors, actuators, cabling) and programmed automation logic
- Integrated devices across various platforms and created custom mobile/tablet interfaces
- Conducted thorough system testing, debugging, and performance optimization
- Coordinated with subcontractors (electricians, HVAC, plumbers) to align installations with technical plans
- Delivered end-user training, system documentation, and ongoing technical support
- Provided system maintenance and feature upgrades based on client feedback and evolving needs

### Senior Software Developer - Team leader - Chief Information Officer

Greenhouse Inc., Almaty, Kazakhstan | Sep 2008 to Aug 2015

(FMCG national wholesaler (import, B&B) with 4,500 employees)

**Technologies:** HTML, ECMAScript 5, PHP, MySQL

- Spearheaded the creation and implementation of an integrated accounting and management system for the holding, covering procurement, warehousing, and reporting
- Implemented a communication system for 1,500 agents across 40 regions to streamline order processing
- Created an order consolidation and invoicing system, optimizing delivery logistics.
- Managed over 20,000 daily orders with 20–30 items each
- Developed an internal corporate website for document approval workflows and centralized storage, streamlining business processes and improving transparency
- Led a team of 25 multidisciplinary IT specialists

### Senior Software Developer

Nazik LLP, Almaty, Kazakhstan | Aug 2005 to Aug 2008

- Built a system to manage production cycles from procurement to sales across retail outlets
- Handled ingredient tracking, storage, and internal movement between units
- Implemented intricate calculations and cost accounting within the system to handle the complex and extensive cost calculation processes inherent in the production of goods
- Designed and implemented production reporting systems to provide detailed insights into manufacturing operations and performance metrics

### Middle Software Developer

Central Asia Billing, Almaty, Kazakhstan | Aug 2004 to Aug 2005

- Worked on a billing system for utility subscribers, from calculation to invoice delivery
- Contributed to the development of a robust platform to calculate and deliver bills efficiently, meeting the needs of utility service providers

---

## EDUCATION

### Master of Engineering

National Technical University of Kazakhstan Master of Engineering | 2001
